2nd Pass      Count Start Time: \_\_\_\_\_ Count End Time: \_\_\_\_\_

3rd Pass      Count Start Time: \_\_\_\_\_ Count End Time: \_\_\_\_\_

**How to Count:** You may count in your garden throughout the day. Each time you go out to count is known as a **pass**. Garden watchers will report the highest number of individuals of any species seen on one pass in the garden. **In other words, do not add the total observations for the entire day.** For example, a garden watcher may walk through his/her garden 3x in day. On the first pass s/he saw 3 monarchs and 5 zebras. On the second pass, 2 monarchs and 8 zebras. On the third pass, 4 monarchs and 6 zebras. S/he will report on this form that s/he saw 4 monarchs and 8 zebras. **Please be specific: Vague data will not be included! (ie – too many to count, etc.)**

**NABA requires that we collect \$3.00 for each participant.** However, if you counted at a park or other facility that is in the same circle as your home garden you do not have to pay the \$3.00 twice. This fee is used by NABA to defray count program costs.

Return this form by **July 25<sup>th</sup>** to:  
NABA-Atala Chapter,  
c/o Lana Edwards  
1707 SW 18<sup>th</sup> Street  
Boynton Beach, FL 33426

Record the number of each species seen. Write in any species that aren't listed:

Butterfly Species	Total #
Polydamas Swallowtail	
Black Swallowtail	
Giant Swallowtail	
Palamedes Swallowtail	
Checkered White	
Great Southern White	
Cloudless Sulphur	
Orange-barred Sulphur	
Large Orange Sulphur	
Statira Sulphur	
Sleepy Orange	
Dainty Sulphur	
Atala	
Mallow Scrub Hairstreak	
Fulvous Hairstreak	

Butterfly Species	Total #
Cassius Blue	
Ceraunus Blue	
Gulf Fritillary	
Julia	
Zebra Heliconian	
Common Buckeye	
White Peacock	
Monarch	
Queen	
Long-tailedl Skipper	
Dorantes Longtail	
Horace's Duskywing	
Tropical Checkered Skipper	
Southern Skipperling	
Fiery Skipper	

List Immatures in the space below:

Butterfly Species	# of each observed			Genus and Species of Plant
	Egg(s)	Caterpillar(s)	Pupa(s)
